

Computer Stores and Vend.

Grow your computer & electronic business with
Vend POS.

Brought to you by

01

Why is Vend perfect for your computer & electronics store?

Vend looks sleek both on the inside and out. In addition to its clean and modern interface, Vend can run on your iPad and can give you that cool factor when you're showcasing products or ringing up sales.

Our solution lets you retain customers and build loyalty thanks to its useful [customer management](#) and loyalty features. Your shoppers can [earn loyalty](#) on what they buy, while you get the ability to track purchase histories so you can personalize their offers, products, or services.

Vend lets you keep up with your fast-paced business through [dashboard reporting](#), which provides real-time sales and inventory analytics that you can access anytime, anywhere.

02

What workflows or features are best suited to your computer & electronics store?

Use [composite products](#) to sell customized computer builds, while still keeping track of all the individual parts used.

Do you offer repairs and other services? You can easily [add your services as products](#) in Vend. Simply add the product and [adjust the quantity](#) to depending on how much time was spent fulfilling the service.

Vend helps you with all your inventory management needs, from [purchase orders](#) and [stock transfers](#) to [inventory counts](#) and reporting.

Need a better idea on how to manage inventory with Vend?

[Download this product CSV template for computer and electronics stores](#) to learn more about variants, composite products, and other item information that you can manage and track with Vend.

03

What are the recommended add-ons for computer & electronics stores?

BOOKING: [Timely](#)

An intelligent cloudbased scheduling solution that lets you schedule appointments, allow online booking, and send automatic email or SMS reminders to customers.

ACCOUNTING: [Xero](#), [Quickbooks](#)

Cloud-based software makes accounting tasks such as end of day reconciliations, invoicing, and account management quick and easy.

04

What types of hardware are best suited for computer & electronics stores?

Computer and electronics stores require hardware that's powerful, functional, and great-looking all at the same time. Vend delivers all that by having its advanced POS software run on Macs, PCs or even iPads, so you can showcase your products and sell to customers on the floor or behind the counter.

05

Who's using Vend?

There are plenty of awesome computer and electronics retailers who use Vend. One of which is [Ubertechs Ltd](#) in Lancaster, England.

“We hold a stock of nearly 500 Apple repair parts, along with Apple accessories and refurbished computers. Vend allows us to keep track of all of these parts with its integrated product and inventory system. We can easily see stock of all our parts along with value and stock locations. Searching for a repair part within the Vend system is very quick and easy; multiple technicians can access the system simultaneously to check on stock and adjust inventory.”

Mike Dent, Founder, Ubertechs Ltd, United Kingdom

About Vend.

Vend is a cloud-based retail software platform that enables retailers to accept payments, manage their inventories, reward customer loyalty and garner insights into their business in real time. Vend is simple to set up, works with a wide range of point-of-sale devices and operates on any web-capable device with a browser.

Whether it's simplifying the inventory process, cutting 30 minutes from their end-of-day bookkeeping or making it simpler for them to sell their products on multiple channels, Vend's mission is to make retailers' lives easier.

With Vend, retailers are able to focus less on transaction and inventory concerns and more on creating that relationship with their customers. Vend aims to empower merchants by putting the right data and tools into retailers' hands and enabling them to do things themselves – and succeed.
