

Kiosks and Vend.

Grow your kiosk business with Vend POS.

01

Why is Vend perfect for your kiosk business?

Perfect for quick-service retail, Vend is fast, user-friendly, and enables you to make sales and process payments with ease. You can set up [Quick Keys](#) so your most popular products are all just one tap away.

You can easily track your inventory using Vend [reporting](#) to see what sells, when, and how often. With powerful insights at your fingertips you'll know exactly what stock you have, what you'll need, and when you'll need it.

Don't let dodgy wi-fi or business relocation slow you down. With Vend's [offline mode](#) transactions can be made even if the internet goes down, and will sync to the cloud when you reconnect. Connectivity problems are no longer your problem.

Photo & Go, Las Vegas

02

What workflows are best suited to your kiosk?

[Vend Register for iPad](#) allows you to step out from behind your stand. Ring up sales and take payments wherever you are, and even go paperless with emailed customer receipts.

Vend helps you with all your inventory management needs, from product imports and purchase orders to stock transfers and inventory counts.

Set up your staff with different [levels of access](#) to improve security, and find out who your top performing salespeople are with our reporting features. Track who sells what and set targets for individual cashiers or locations.

[Download this product CSV template for kiosks](#) to learn more about variants, composite products, and other item information that you can manage and track with Vend.

03

What are the recommended add-ons for kiosks?

PAYMENTS: PayPal, Vantiv, iZettle, Tyro, Smartpay, Moneris

These great payment providers enable you to take payments, minimize user error and make end of day reconciliations easy.

EMPLOYEE SCHEDULING: Deputy

Use this intelligent staff rostering solution to schedule shifts, add employee notes, and track the performance of sales associates.

ACCOUNTING: Xero, Quickbooks

Cloud-based software makes accounting tasks such as end of day reconciliations, invoicing, and account management quick and easy.

05

Who's using Vend?

One excellent example of a kiosk using Vend is Photo & Go in Las Vegas, who love the system's speed and ease of use.

“At Photo & Go we’re all about inspiring our customers with high quality physical images that can be taken away instantly. With all the moving pieces from order placement, to ringing purchases up at the register and packaging products, things need to run efficiently. Vend’s POS has made this process as smooth as it can possibly be. The layout is clean, easy to navigate, and the Quick Keys feature is especially helpful for our most popular products. The fast-paced, instant nature of our business demands simplicity, and Vend gives it to us!”

Dov Quint, Photo & Go

About Vend.

Vend is a cloud-based retail software platform that enables retailers to accept payments, manage their inventories, reward customer loyalty and garner insights into their business in real time. Vend is simple to set up, works with a wide range of point-of-sale devices and operates on any web-capable device with a browser.

Whether it's simplifying the inventory process, cutting 30 minutes from their end-of-day bookkeeping or making it simpler for them to sell their products on multiple channels, Vend's mission is to make retailers' lives easier.

With Vend, retailers are able to focus less on transaction and inventory concerns and more on creating that relationship with their customers. Vend aims to empower merchants by putting the right data and tools into retailers' hands and enabling them to do things themselves – and succeed.
